

# AROUND THE TOWNS

Children from Cradles to Crayons child care and learning center in Morristown helped plant annuals around the outside dining area of the Dublin Pub in Morristown.

## Gardening project helps young minds bloom

Let's Bloom Together works to introduce gardening to children ages 3 to 8. Founded by Michael Bedrick, who is known as "Marigold Mike," the youngsters are involved in beautification projects across Morris County.

"We go over the basics of gardening while introducing the very basics of other subject matters like science, math, astronomy, geology, commu-

nity and much, much more," Bedrick said.

"The main idea is to get these children into being part of the community while having fun. Children learn best while they are having fun."
